<a href="#">National Garden Ry Convention</a>	-	-	20-24 June 2022	Denver, CO

### [Conejo & Tortuga Railroad Train Run](#)

Bernie and Vicki Meister welcome CCCGRS once again to the Conejo and Tortuga Railroad in Paso Robles. Following their first and very popular train run in 2021, guests are encouraged to bring their battery powered large G scale trains to experience the railroad line. New for 2022, Bernie has expanded the layout with a spur line and reversing loop featuring several impressive bridges from SplitJaw. Each bridge was custom powder coated before installation. Refreshments will be served and there is plenty of room for all.

### [Rileyville Railroad Train Run](#)

We had a wonderful time during our first train run at the Rileyville Railroad. It is obvious Jim and Donna Williams enjoy creating, decorating and operating this freelance railroad. We think they had even more fun sharing their creation and the beautiful spring day with our group. The Rileyville Railroad is a welcome addition to the growing roster of North County garden railroads. We look forward to our next visit!

### [2022 Best of the West Antique Equipment Show](#)

Event organizers have confirmed CCCGRS will operate our garden railroad display at the 2022 Best of the West Antique Equipment Show over Memorial Day weekend, but details are still lacking on the size and location of our space. We know everyone is excited to finalize plans for the display. Watch your email for announcements of a special planning meeting via Zoom, as soon as we have those necessary details.

### [2022 National Garden Railway Convention - Denver, Colorado](#)

Our friends of the Denver Garden Railway Society will proudly host their **ninth** National Garden Railway Convention since 1985 in June. Garden railroaders from across the country are already making plans to meet old and new friends, while visiting over 50 garden railroad layouts. There is still time to make your reservations for this special event!

### [CCGRS Membership - Now Accepting 2022 Dues](#)

Our annual dues directly promote your garden railroad hobby in our community, including special events like this month's visit to the Norgrove Railway. Members have access to this monthly "web portal" bulletin, shared newsletters from a network of garden railroad groups across the United States and our quarterly membership roster. Prospective and continuing members will find application/renewal details at [www.cccgrs.org/contact](http://www.cccgrs.org/contact). We appreciate your continued generous support of time and talent.
